Subject: Uber in SC

For what it's worth:

I do a lot of business in South Carolina, lived there and visit frequently. I enjoy the freedom of choosing how I travel from point to point on business and pleasure trips. I feel safer in an Uber vehicle and don't mind paying more for comfort. By having Uber in South Carolina you are actually adding jobs back to the economy. In my three visits here is what I witnessed first hand:

1. First driver was working this as a job in between jobs as an international environmentalist. He loved living in South Carolina and Uber allowed him to have an income without having to move to Panama to be closer to his work and with less overhead expenses.
2. A retired gentlemen that needed something to do because he was bored sitting at home.
3. A mother who need extra money to help support her husband who was out on disability and his paid had been cut in half for long term disability.

Please reconsider

Uber has been fantastic! Please do not ask them to stop operations and force residents to go back to using outrageously priced taxis and car services. If they want to compete with uber, ask them to lower their prices its that simple.

Subject: we need uber

To all concerned

I have used uber all over the world and a lot in SC. I believe it is far safer and the vehicles are in far better shape than most taxis. You should allow them to operate in South Carolina. Taxi services in SC are terrible and it is about time a solution exist.

Thank you John Thomas
SC über rider
